BASEBALL TALK.

New York got Hillebrand from Washington on a waiver and Griffith is reported to have signed him. We will believe this report when the ex-Princeton boy goes on the slab for the Yankees.

It is a lively scrap for second place in the American League,

Philadelphia is the only club that is upholding the falling glory of eastern baseball in the American League,

It is predicted that Bill Clymer, the efficient and hard-working manager of the Columbus champions, will manage the Boston Americans next season. Prez Bryson knows a good man when he has one, and it is hardly expected that he will let Clymer go.

On his showing so far this season field is one of the greatest finds the past few seasons, and all honor is duePatsy Donovan for digging him up. His work against the Cardinals was about as clean cut as anything that has come off over there recently, especially when you consider the fact that the Cardinals were by no means helpless before him.

McCluskey, the Baltimore twirler, has carned the title of the "Iron Man" of the Eastern League. He pitched Baltimore twice to victory over Montreal, one of the games going twelve innings. In the two games he allowed the Montreals twelve hits, while he had a total of ten strike-outs to his credit.

No games scheduled today as all the teams are on the road to begin a series in the Western cities.

A Consecutive Flush

He was a beginner at poker. had beginner's luck and all the money seemed to flow into his pockets. His pile of chips grew to huge proportions. Then there came a clash. It was a jackpot. The dealer opened and every body stayed in. The dealer drew two cards, the beginner one, and the other players three each. Soon the dealer and the beginner had the table to themselves. They boosted each other until the other three men put their elbows on the table and began to take low, noiseless breaths of suspense slow, noisoless breaths of suspense. Finally, when there was about \$22 in the pot, the beginner called,
"Full house," announced the dealer, and placed his cards, face up, on the

green cloth.

"Yours—I've only a flush," replied the other disgustedly, and tossed his hand into the deck.

naval board of inspection to be ready to conduct the trial trip of the battleship Connecticut early in August. The vessel is now in dock at the Brooklyn Navy Yard, and word has beenreceived at the Navy Department that the repairs on the vessel, incident to the damage caused by grounding in Porto Rican waters, will be completed within the next ten days. It is expected that tae ship will be taken out of the dock a week from Saturday and be ready to leave the navy yard on the following Thursday or Friday. The vessel will proceed to the censt of Maine, where the board of inspection, accompanied by naval engineers, including the junior line officers who are under special instruction for engineering duty, will observe the test. Interest attaches to this test for the reason that the Connecticut is a sister ship of the Connecticut is a sister ship of the Louisiana, the former having been built at the Brooklyn Navy Yard and the latter under contract at Newport News, Va. Some comment has been caused by the fact that the Connecticut was not tried when she went into commission, but such a trial would have been unfair to this ship, as compared with the Louisiana, for in the case of contract built ships the trial crews are composed of expert firemen and engineers. It will also be an advantage which has never happened in the case of another ship under trial that all the weights are on board and the vessel is in service trim.
